

GREEN PRACTICES

1. **Title of the Practice:**Green Practices

2. **Objective of the Practices:**

- To reduce pollution and create a positive impact on environment.
- To protect biodiversity for the well-being of nature which helps people to lead a healthy and serene life.
- To protect environment and sustain its natural resources for present and future generation.

3. **The Context:**

The Catastrophic problems of pollution unchecked lead to harmful effect on environment. It affects bio-diversity and well-being of nature. Our college is located at the center of the town, beside Balaji Colony, S.V. University Road, Tirupati. It is a busy area where you find heavy traffic. Hence, our staff and students are prone to get affected with the various gases emitted by the vehicles. Our campus is spread over an area of nearly 20 acres with requisite features to make it as a green campus.

4. **The Practice:**

Keeping the above context in view, our college initiates environmental friendly practices such as usage of public transport, maintaining the college campus plastic free, reducing paper usage and more plantations in college campus.

- a. Most of the students and staff use public transport for commuting. In addition, NO VEHICLE DAY is being observed on 3rd Saturday of every month.
- b. Both students and staff are instructed to get reusable water bottles and reusable lunchboxes. Thus, restricting them from getting single use items and make sure that all waste goes to the garbage bins. The college conducts rallies and sensitization programs to bring awareness among public health hazards caused due to the usage of plastics.
- c. As the world is digitalized, paperless methods are adapted by communicating circulars through e mail and what's app. This approach curtails the usage of paper.
- d. Instead of using paper flowers and plastic flowers, we use natural flower

bouquets. It's an eco- friendly act.

- e. Our college NSS students, NCC cadets of Army, Navy and Air wing participated indifferent tree plantation programs in the college campus. They also participated in Clean and Green programs in our college and town.
- f. The rich, cool, fresh, abundant and lavish greenery in our college campus is being maintained by the Department of Garden under the TTD Management.

5. Evidence of Success:

Our vast green, pollution free college campus is itself an evidence of success.

6. Problems encountered and Resources required:

Practically, there are great problems to follow the above green practices like usage of public transport, paper, and maintenance of plastic free college campus. To maintain green practices we need good water resource, bio fertilizers and organic fertilizers. We also require public transport for the conveyance of staff and students. Bottles are needed to transform our campus into a plastic free college camp
